How to submit a report

To file a report with Cloudflare, please select the appropriate category on the reporting form. Please be sure to fill out each field requested in the form and be as specific as possible regarding the content and its location on the website. You may submit up to 250 URLs at a time. An explanation of our approach to abuse and what you can expect us to do in response to your report is available [here](#). Please note that reports submitted through this form are subject to Cloudflare's [privacy policy](#), and that reports may be released by Cloudflare to third parties such as the [Lumen Database](#).

Who should be notified?

Because Cloudflare does not have the ability to remove content from a website, it is our practice to forward abuse complaints to entities like the hosting provider and/or website owner to follow up. Please specify:

☐ Please forward my report to the website hosting provider.

☐ Include my name and contact information with the report to the website hosting provider.

☐ Please forward my report to the website owner.

☐ Include my name and contact information with the report to the website owner.

DSA certification of bona fide belief

By checking this box, you confirm that you have a bona fide belief that the information and allegations contained in this report are accurate and complete. Please note that, to the extent this report concerns a website using one of Cloudflare's hosting services, Cloudflare may require this box to be checked before engaging in the notice and action process.
